

# Final Presentation

---

By Team Quasar  
Kyaw Hein, Kenny Lee-Fujioka, and  
Jaimie Obatake

# Overview

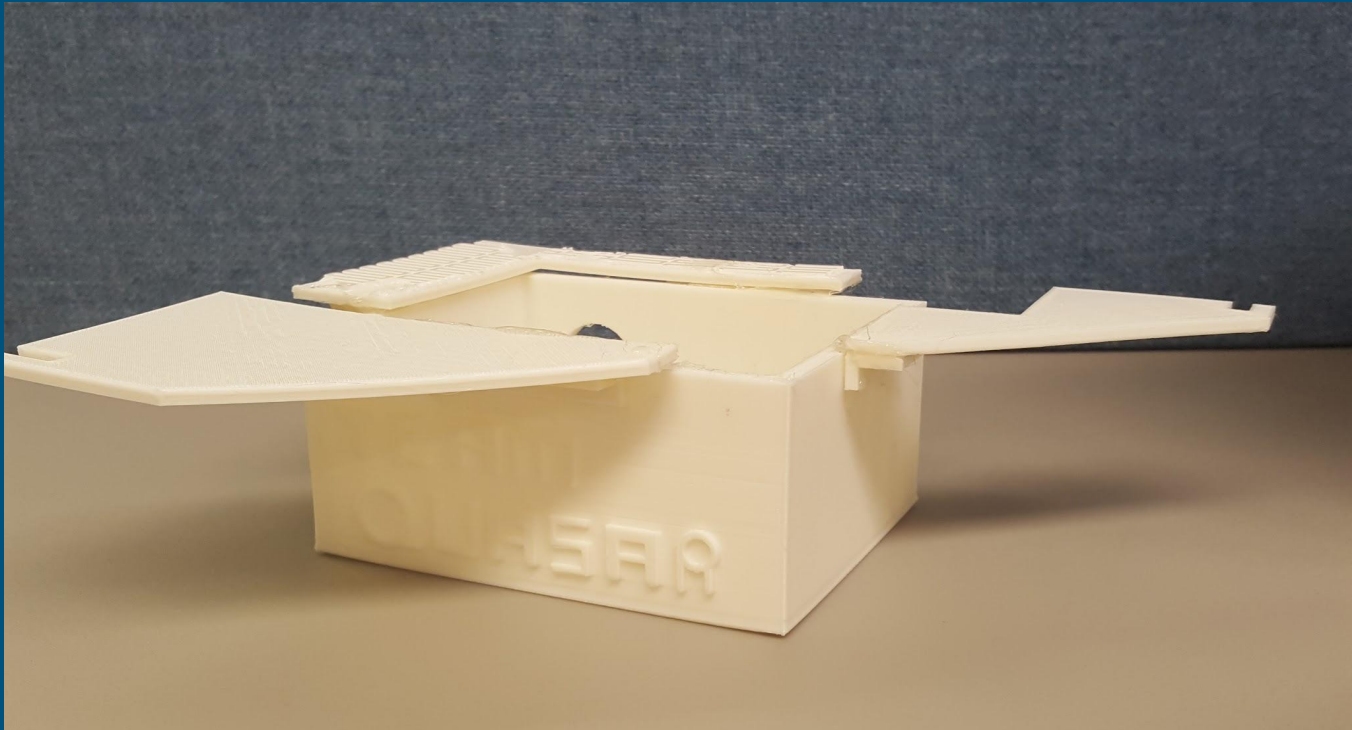

---

- Design Choices
  - PCB & Housing
- Progress since CDR
- Special Features
- Future Plans

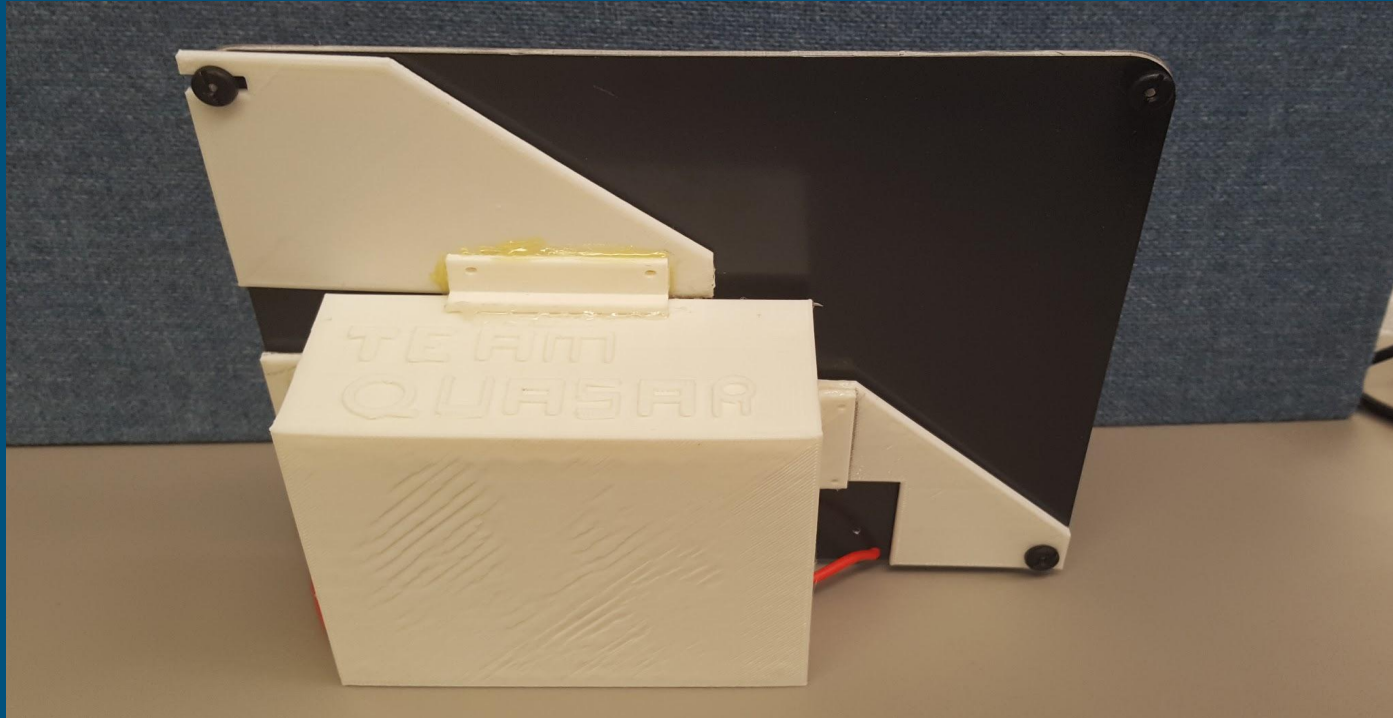

# Design Choices: Housing

---

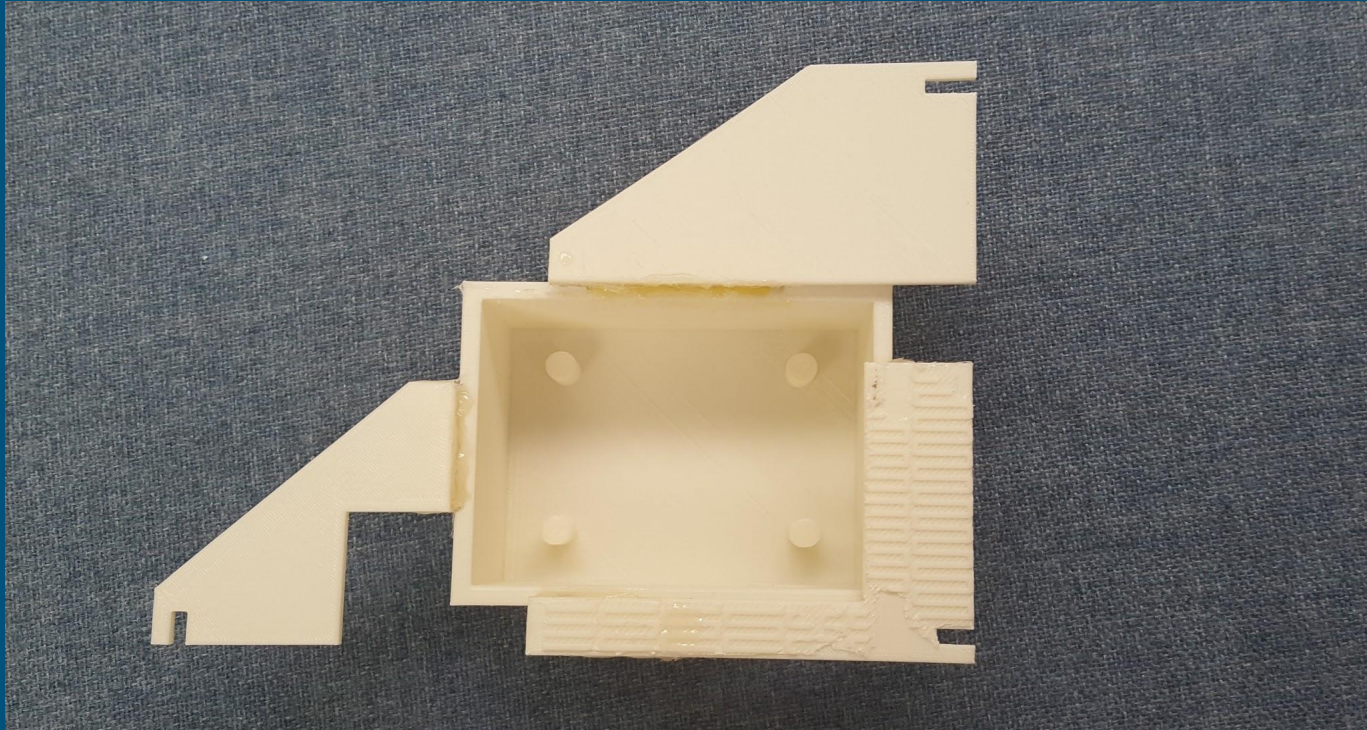

# Design Choices: Housing

---

# Design Choices: Housing

---

# Special Feature(s)

---

- It is simply made

# Progress since CDR

---

- Solved panel and battery voltage discrepancy
- Completed Housing
- Printed PCB
- Soldered Parts

# Future Improvements: Housing

---

- Add ventilation to the housing
- Fix the stands
- Change the orientation/placement of the XBee antenna on the PCB
- Add an extra space in the housing for solar irradiance sensor

# Future Plans

---

- Plans to put together over the summer
